COLORIZE YOUR MARK 1

The aesthetically pleasing cosmetic fascia can be painted to match all available OEM van colors. It also increases safety by helping secure the lift while in the stowed position.

EASY MANUAL BACKUP

The Mark 1 is a fully automatic cassette lift. Should you incur a power failure, the Mark 1 offers a simple manual backup system for your peace of mind

MARK 1:

The intention: to reduce obstructions. The plan: a cassette style lift that allows clear exit and entry. The profile: thin, providing maximum ground clearance. The dual hydraulic cylinders allows smooth operation, not to mention an easy to operate manual backup system in the event of vehicle power failure. The ultrasonic threshold warning system alerts users when the lift does not match vehicle floor level. The sights were set high. The outcome, even higher. Mark 1. The product of elevated thinking.

Imagine the Possibilities
